Summary

Computer Science student specializing in Artificial Intelligence and Machine Learning with a strong foundation in Data Structures, Algorithms, and Web Development. Skilled in problem-solving and programming, with a passion for tackling real-world technical challenges. Actively seeking internship opportunities to contribute to innovative tech solutions.

Education

DRONACHARYA COLLEGE OF ENGINEERING, GURUGRAM, HARYANA

B. Tech in Computer Science Engineering (AIML) | Expected Graduation: 2027

- Current CGPA: 7.9

- Relevant Coursework: Data Structures, Artificial Intelligence, Algorithms, Database Management Systems

G.D. GOENKA PUBLIC SCHOOL, GURUGRAM, HARYANA

Senior Secondary (PCM) | 2023 | Percentage: 88

MEENAKSHI PUBLIC SCHOOL, GURUGRAM, HARYANA

High School (10th Grade) | 2021 | Percentage: 93

Skills

Programming Languages: C++, C, Python, SQL, Swift, R

Python Libraries: NumPy, Pandas, Matplotlib

Web Development: HTML, CSS, JavaScript, React.js(basics)

Other Skills: Problem-solving, Algorithms

Coding Profiles

- **LeetCode:** <https://leetcode.com/Yashxsharma/> | 160+ problems solved

- **HackerRank:** <https://hackerrank.com/yashsharmaa555> | 5-star C++ certification, 4-star Python certification

Projects

1. Portfolio Website

[View Project](#)

Tech Stack: HTML, CSS

- Designed and built a personal portfolio to showcase projects and achievements.
- Deployed using GitHub Pages for public access.

2. Foxx Fitness Gym Website

[View Project](#)

Tech Stack: HTML, CSS, JAVASCRIPT

- Created a professional website for a fictional gym brand with pages for home, services, membership, and contact.

- Focused on clean layout, call-to-action elements, and responsive design.
- Optimized for mobile and desktop views.

3. Weather App

[View Project](#)

Tech Stack: HTML, CSS, JavaScript, OpenWeather API

- Developing a real-time weather app that fetches weather data based on user location.
- Integrating OpenWeather API to display temperature, humidity, and weather conditions.

4. CALCULATOR

[View Project](#)

Tech Stack: HTML, CSS, JavaScript

- Designed a fully functional calculator supporting basic arithmetic operations.
- Built with clean UI and responsive layout for both desktop and mobile use.
- Implemented error handling and keyboard input support.

5. Rock Paper Scissors Game

[View Project](#)

Tech Stack: HTML, CSS, JavaScript

- Built an interactive browser-based game with dynamic UI updates.
- Logic includes random AI moves, score tracking, and round results.
- Enhanced with animations and sound for a fun user experience.

Certifications

- Software Engineering Job Simulation (Goldman Sachs via Forage):

Simulated real-world engineering tasks, focusing on debugging, collaboration, and building scalable solutions

-Software Engineer Intern Certificate (HackerRank):

Certified for proficiency in problem-solving, data structures, and software development fundamentals.

-AWS APAC Solutions Architecture Completion Certificate (AWS Via Forage):

Gained insights into cloud computing, AWS services, and designing a simple scalable, hosting architecture.

-SQL (Basic) Certificate (HackerRank):

Certified for foundational SQL skills, including queries, joins, and data manipulation.

- Data Structures & Algorithms (Infosys Springboard):

Comprehensive training in problem-solving techniques and algorithm design, and optimizing code efficiency.

- Introduction to Programming Using Python (Infosys Springboard):

Developed foundational programming skills using Python.

- Software Engineering Job Simulation (Accenture via Forage):

Hands-on experience in software development, project management, and real-world problem-solving.

-Certificate for the completion of C training (Spoken Tutorial):

Learned core concepts of C programming, including syntax, memory management, and problem-solving techniques.
